## Our Palliative Care Services Team

***Advancing patient-centered care.***

***A resource when your patient has a serious illness.***

The Palliative Care Services team of Midwest Palliative & Hospice CareCenter:

- Is available to help you care for patients in North/Northwest Chicago, North Suburbs and Lake County.
- Works with physicians in six area hospitals, providing palliative care consultations for their patients with serious illness. We provide treatment and support regardless of the stage of illness or goals of care.
- Can determine hospice eligibility or assist teams/patients/families with complex decision-making and identifying goals of care.
- Provides access to professional staff 24-hours a day, seven days a week.
- Provides palliative care consultation services for more than 1,000 patients annually, working alongside patients' physicians.

About us:

- 92% of our physicians are board certified in hospice and palliative medicine.
- As recognized experts in palliative care, Midwest CareCenter facilitates education through our accredited fellowship program, one of two such programs in greater Chicago.
